

Rivendell - March 10-12 2021
Gopher Tortoise survey in selected regions of the Rivendell Preserves

Rivendell Notice: On March 10-12, representatives from Natural Resources will be conducting a gopher tortoise survey in selected regions of the Rivendell Preserves. On the 10th, they will be parking their vehicle at the end of Millpond Court and inspecting the area along the southern and eastern border with Oscar Scherer State Park. When that is completed they will park along Scherer Blvd and be inspecting the Preserve area behind Placid Lake. This is preparation for the Florida State Forestry Service to begin cutting fire breaks in the same areas. The Forestry Service begins their work on March 15 and will be completed by the end of March. This activity has been approved by Sarasota County. The work by Florida State Forestry Service comes at no charge to the Rivendell community and is part of the States efforts to mitigate the effects of potential forest fires.
